

XSKY AIMesh Storage System

XSKY AIMesh Storage System(AIMesh) is a unified AI data platform for intelligent computing workloads, integrating high-performance storage, data acceleration, tiering, and AI data management.It provides multi-protocol data access for training datasets, checkpoint data, model files, and hot-data workflows, helping AI infrastructure sustain high-throughput and concurrent access across the full AI data lifecycle.

- System name of the submission

XSKY AIMesh Storage System

- Submitter name

Beijing XSKY Technology Co., Ltd.

- Submission date
- Version of the benchmark
- Solution type of the submission

AIMesh is a **Share File** Storage System.

- Submission division (OPEN or CLOSED)

CLOSED

- System components

Item	Storage Node	Client Node1	Client Node2	Client Node3
CPU	2*Intel Gold 6530P	2* Intel Gold 6530	2*Intel 8487P	2*Intel 8558P
Memery	16 * 32G DDR5 6400MHz	16 * 32G DDR5 6400MHz	16 * 32G DDR5 6400MHz	16 * 32G DDR5 6400MHz
Network Card	8 x 200G Ethernet RoCE ports (4 x dual-port Mellanox CX7)	4 x 200G Ethernet RoCE ports (2 x dual-port Mellanox CX7)	4 x 200G Ethernet RoCE ports (2 x dual-port Mellanox CX7)	4 x 200G Ethernet RoCE ports (2 x dual-port Mellanox CX7)
NVMe SSD	16 x UMIS (Union Memory) UP2093T8HK015LX 7.68 TB	--	--	--

Operating System	Rocky Linux 9.6	Ubuntu 24.04	Ubuntu 24.04	Ubuntu 24.04
